

carbonTRACK Installation and Maintenance Electrician

At carbonTRACK, we are changing the way people use and understand energy. We envision a world where energy is consumed sustainably, shared fairly, and empowers all people.

Our energy management solutions enable householders and businesses to become more sustainable through the use of our smart home automation products and energy insights.

A little bit about carbonTRACK, we are a global technology and innovation company. We design, manufacture and install intelligent energy management solutions in Australia, New Zealand, South Africa and the United States.

We are currently seeking an **Installation and Maintenance Electrician** to join our vibrant and friendly team to meet growing demand.

The successful applicant will have a positive attitude and be a key member of our operations team. They will assist in driving safety and operational procedures.

This role will involve:

- Installing our intelligent energy management solutions;
- Maintaining and repairing products;
- Testing products prior to installation and providing feedback for further development;
- Training other installers on the installation of the product;
- Providing troubleshooting advice and supporting to other installers both on the ground and remotely; and
- Discussing safety issues and implementing safety procedures.

The candidate we are after requires the following:

- An A-Grade electrician license;
- The qualifications to be a registered electrical contractor;
- 2+ years post licensing experience;
- A background in general domestic and/or commercial applications;
- A current drivers licence;
- Knowledge of solar, LED lighting, energy storage and/or energy management (preferable but not mandatory); and
- A good work approach: autonomous, responsible, helpful and good with paperwork.

At carbonTRACK, we are a small, cohesive team with strong corporate values and a vision to grow substantially. In this rapidly moving environment, all members of the team need to remain agile and focus on solving issues to benefit customers.

Whilst the role is Melbourne-based, there will be regular interstate travel, and possibly some international travel.

This is a full time position with an immediate start for the successful applicant.

If you are interested in being part of a challenging, fun and fast paced environment, then this is the job for you!
